ITEM NO	ITEM DISCUSSED	ACTION
1.	Aileen Marshall welcomed everyone to the meeting and apologies were noted.	
2.	Three detailed presentation were given as follows:-	
	Jill Stewart - Housing Allocation Policy.	
	Mike McClafferty – How Housing Department deal with Anti-social Behaviour complaints.	
	Richard Anderson – Housing Support.	
	Members were then given the opportunity to ask questions:-	
	<ul> <li>Q. How many evictions have the Council made within the last year?</li> <li>A. Six evictions in past year.</li> <li>Q. How do you know if a tenant has been evicted previously?</li> <li>A. On the Housing Application it asks where the tenant has lived for the past five years. Checks may be made.</li> <li>Q. How are Anti-Social Behaviour complaints dealt with from tenants in Housing Association properties?</li> <li>A. Housing management staff will adopt a similar approach to ourselves.</li> <li>Q. How many Housing Officers in South Elgin and will this be increased due to number of new houses?</li> <li>A. Ratio 600 – 700 tenancies per Housing Officer. The number of houses in a particular area is taken into account. Elgin South</li> </ul>	
	<ul> <li>houses in a particular area is taken into account. Elgin South does not merit a new Housing Officer.</li> <li>Q. Are people who do not work and have a known drug problem classed as vulnerable and will they remain in the Homeless unit?</li> <li>A. We have a legal obligation to help such people and will not give them a tenancy until they are ready. These individuals must accept support as part of their tenancy and could possibly be put back into temporary accommodation and their support plan revisited.</li> <li>Q. What are main reasons for homelessness?</li> </ul>	

	<ul> <li>A. Majority due to the family/friends no longer willing to accommodate them.</li> </ul>	
	Q. What is the age group of homelessness at the moment?	
	A. 25-59 single person.	
	Q. Concerns over homelessness and the way that is screened. Policy should be to look at all allocations from the three lists.	
	A. We have to determine and give applicants some indication as to	
	where they are on the list. Aspirational quotas are set every year.	
	Approx 45-55% of allocations are made to homeless people, with	
	35% expecting to go to transfer list or waiting list. Q. Some young tenants are put to live in areas where there are	
	mostly older people. If there are any problems the older person	
	may be too scared to tell. During a recent presentation by Sandra	
	Gracie, Strategy Development Officer, MCHSCP regarding Re- shaping Care, it was noted that housing had the possibility of	
	improving health in older people but can also bring it down.	
	A. We cannot say you have to be over 50 to live in that house. It is	
	important for tenants to get to know their Housing Officer and for	
	them to tell people of any concerns they may have i.e. health workers etc. and it will be followed through.	
	Q. Why does it take so long to allocate some houses?	
	A. There is a host of reasons but we can do better in that area of	
	performance. It is often due to repairs needing to be carried out on the properties or refusals can add to timescales. Richard	
	Anderson is working on improving the performance of empty	
	properties to ensure they are empty for as little time as possible.
